PERSONAL

Born December 5, 1968 in Ruti, Switzerland.

ACADEMIC RECORD

University of Reading, U.K., Catalysis Research Center - November 1996 to September 1997. Post-doc (supervisor Prof. R. Burch)
University of Trieste, Chemistry Department - November 1993 to October 1996. PhD awarded September 1997. (supervisor Prof. M. Graziani)
University of Trieste, Chemistry Department - November 1987 to November 1992. B.S.Chem.

TEACHING EXPERIENCE

Full Professor of Inorganic Chemistry, Department of Chemical and Pharmaceutical Sciences, University of Trieste - December 23, 2016.
Associate Professor of Inorganic Chemistry, Department of Chemistry, University of Trieste - December 1, 2006.
Assistant Professor of Inorganic Chemistry, Department of Chemistry, University of Trieste - July 27, 1998.

SCIENTIFIC ACTIVITY

The scientific interests of Professor Fornasiero are in the field of inorganic chemistry, with attention to the design and development of multi-functional metal-oxide nano-systems for their advanced applications in energy related material science and environmental heterogeneous catalysis. The 30 years of his research activity have been dedicated to the development of:

- electro-catalysts for green H₂ production, CO₂ valorization, N₂ activation and H₂O₂ production
- photo-catalysts for solar fuel production, including H₂ and organic synthesis
- advanced catalysts for methane catalytic oxidation and propane dehydrogenation
- novel photo-catalyst for water depollution
- active materials to be used in fuel cells
- new catalysts for the production and purification of hydrogen
- catalysts for the reduction of nitrogen oxides under oxidizing conditions
- innovative materials for catalytic converters

HONORS

- Member of the Italian Academy of Engineering and Technology, 2026
- Environment, Sustainability and Energy Horizon Prizes 2026. Awarded by the Royal Society of Chemistry for a team work on the development of improved photocatalytic approaches for solar powered hydrogen production from sustainable biomass.
- Member of European Academy of Sciences and Arts, 2025.
- Paolo Chini Memorial Lecture, 2025. Awarded by the *Italian Chemical Society*, for his contribution to research in the field of Industrial Chemistry, Catalysis and Inorganic Chemistry.
- Fellow of the Royal Society of Chemistry, 2023.
- Member of the Academia Europaea, 2022.

- Lamberto Malatesta Medal in Inorganic Chemistry, 2022. Awarded by the Italian Chemical Society to an Italian researcher for his contribution to research in the field of Inorganic Chemistry.
- Member of the European Academy of Sciences, 2021.
- Maria Teresa Messori Roncaglia and Eugenio Mari Award, 2018. Awarded by the *Accademia Nazionale dei Lincei* for "fundamental contribution to environmental catalysis, with particular reference to various polluting emissions in atmosphere, with a short, medium and long-term vision."
- Visiting Professor supported from *Chinese Accademia of Sciences*, 2018. Visiting Scientist Fellowship to spend 2 months at the Dalian Institute of Chemical Physics working with prof. Feng Wang in the Lab of Bioenergy Chemical.
- Edoardo Kramer Award, 2017. Awarded by the "Pia Fondazione Edoardo Kramer" and by *Istituto Lombardo Accademia di Scienze e Lettere* (Founded by Napoleon Bonapart), for his recent works on solar fuels, on H₂ as energy vector, on fuel cells and on the transformation of biomasses in fuels, as well as the attention in the development of catalysts for abatement of pollutant emission from conventional vehicles.
- Rudolf Zahradnik Lecture, 2017. Honorary lecture part of the "Rudolf Zahradnik Lecture Series" at the RCPTM in Olomouc, Czech Republic, established in 2013 in honor of the President of the Academy of Sciences of the Czech Republic and the founding chairman of the Learned Society of the Czech Republic.
- IACS Heinz Heinemann Award, 2016. Awarded by the *International Association of Catalysis Societies* for his remarkable contribution to catalyst science and technology achieved during past four years in the development of novel nanostructured catalysts.
- Chiusoli Gold Medal in Catalysis, 2013. Awarded by the *Italian Chemical Society* to an Italian researcher under 45 years, for his contribution to research in the field of Catalysis.
- Nasini Gold Medal in Inorganic Chemistry, 2005. Awarded by the *Italian Chemical Society* to an Italian researcher under 40 years for his contribution to research in the field of Inorganic Chemistry.
- Second position in the Start-Up Trieste competition, 2005. Regional Competition.
- Giuseppe Stampacchia award for first publication, 1995. National Competition.
- Risaliti Award for Master Degree thesis in Chemistry, 1995. Awarded by the *University of Trieste*.

MENTOR – awards assigned to Students and PhDs supervised by Fornasiero and their current positions

- 2025 - Adolfo Parmaliana Award, Dr. M. Marchi (Post-Doc - Ostrava University)
- 2023 - Adolfo Parmaliana Award, Dr. M. Bisetto (Senior Engineer - Electrochemistry at PFASuiki GmbH)
- 2020 - G. Squinzi Award – Master Thesis, Mr. M. Urban (Post Doc – ICN2 Barcellona)
- 2019 - ENI Award - Debut of Research, Dr. M. Monai (Assistant Professor - Utrecht University)
- 2017 - Adolfo Parmaliana Award, Dr. M. Monai (Assistant Professor - Utrecht University)
- 2017 - Doctoral Thesis Award "EUT Edizioni University of Trieste", Dr. M. Monai (Assistant Professor- Utrecht University)
- 2013 - ENI Award - Debut of Research, Prof. M. Cargnello (Associate Professor - Stanford University)
- 2013 - Best PhD thesis in catalysis - European Federation of Catalysis Societies, Prof. M. Cargnello (Associate Professor- Stanford University)
- 2012 - Alfredo di Braccio Award - Accademia dei Lincei, Prof. T. Montini (Associate Professor- Trieste University)
- 2012 - 4th ERES Junior Award, Prof. T. Montini (Associate Professor - Trieste University)
- 2012 - Best PhD thesis in Inorganic Chemistry - Italian Chemical Society, Prof. M. Cargnello (Associate Professor - Stanford University)
- 2009 - ENI Award Debut of Research, Dr. L. De Rogatis (Senior Scientist at STMicroelectronics)

PROFESSIONAL SOCIETIES

American Chemical Society, 2010

Italian Chemical Society, 2004

Royal Society of Chemistry, 2023

SIGNIFICANT PROFESSIONAL ACTIVITIES

Vice-rector for Research, University of Trieste, August 2025 - now
Member of the Quality Board of the University of Trieste, August 2025 - now
Deputy Director, Dep. of Chemical and Pharmaceutical Sciences, University of Trieste, September 2021 - now
Member of the Academic Senate of the University of Trieste, November 2024 - now
Scientific Responsible of the CNR Research Unit associated with the Institute of Chemistry of OrganoMetallic Compounds (ICCOM) of Florence and located at the University of Trieste, 2008 - now

Executive Editor, ACS Catalysis, February 8, 2021 - now
Associate Editor, ACS Catalysis, February 1, 2015 - now

Editorial Advisory Board, Photocatalysis, November 1, 2025 - now
Advisory Editorial Board, RSC Applied Interfaces, January 1, 2024 - now
Editorial Board, Molecular Catalysis, January 1, 2022 - now
Editorial Board, European Journal of Inorganic Chemistry, February 1, 2020 - now
Editorial Board, Inorganics, April 1, 2015 - now
Editorial Board, ChemCatChem, January 9, 2013 - now
Editorial Board, Cat.Today, December 9, 2008 – now
Editorial Board, The International Journal of Photoenergy, November 1, 2016 - April 1, 2021
Editorial Board, The Open Fuel Cells Journal, December 29, 2008 - December 29, 2012

Scientific Expert and Consultant for The Centre for Science and High Technology - United Nations Industrial Development Organization (ICS-UNIDO), Trieste 2006-2011

Member of Evaluation Committee of Institute of the Catalysis and Petrochemistry (ICP) of the CSIC, Madrid (Spain) 2025-2027.
Member of the Scientific Board of the Czech Advanced Technology and Research Institute (CATRIN), Olomuc, (Czech Republic) 2025-2027

Member of the Scientific Committee of the “2nd International Symposium on Catalytic Removal of Soot Particles.”, Kraków (Poland), September 2025.
Co-Chair of the Programme Committee of the “International Conference on Environmental Catalysis.”, Isola delle Femmine (Italy), June 2025.
Member of the Advisory Board of the “First International Conference on NanoMaterials and Sustainable Applications.” (NANO-SA 2020), Mumbai (India), December 2020.
Member National Steering Committee of CIS19 Meeting, Salerno (Italy), August 2019.
Member National Steering Committee of XII INSTM Meeting, Ischia (Italy), July 2019.
Member National Steering Committee of 28th International Conference on Organometallic Chemistry (ICOMC-2018), Firenze (Italy), July 2018.
Member of the International Advisory Committee of the “3rd International Symposium on Energy and Environmental Photocatalytic Materials (EPEM3)”, Kraków (Poland), May 2018.
Member of the Scientific Committee of “Fundamentals and catalytic applications of cerium dioxide.”, Barcellona (Spain), June 2018.
Member of the Scientific Council of the Consortium for Science and Technology of Materials. 2016 - now.
Member of the Scientific Council of the national meeting of the Inorganic Chemistry Division of the Italian Chemical Society, Padova (Italy), September 2016.
Member of the Scientific Council of the first national meeting of EnerChem, Florence (Italy), February 2016.
Member of the Scientific Council of the national meeting of the Inorganic Chemistry Division of the Italian Chemical Society, Camerino (Italy), September 2015.
Co Chairman - Fundamentals and catalytic applications of cerium dioxide, Udine (Italy), July 2014.
Co-organizer - 8th International Conference on f-Elements, Udine (Italy), August 2012.

Co-organizer - Slovenian-Italian Conference on Materials and Technologies for Sustainable Growth, Nova Gorica (Slovenia), May 2011.

Co-organizer - VIII Congresso Nazionale della Divisione di Chimica Inorganica della Società Chimica Italiana, Trieste (Italy), September 2010.

Co-organizer - 4th Korea-Italy Inorganic Chemistry Symposium, Malcesine, Verona (Italy), September 2006.

Co-organizer 6th Italian Seminar on Catalysis, Fundamentals and applications to environmental problems, Grado (Italy), June 2001.

Co-organizer CEZIRENCAT Summer School, Trieste (Italy), August 1998.

Co-organizer 2nd European - Japanese Meeting on DeNOx, Reading (U.K), March 1997.

Co-guest Editor of Special Issue on "Nanostructured Materials for Photocatalysis." – Catalysis; (2019).

Co-guest Editor of Special Issue on "Morphological, Compositional, and Shape Control of Materials for Catalysis." – Studies in Surface Science and Catalysis; (2017).

Co-guest Editor of Special Issue on "Catalysis by ceria." - Catalysis Today; (2015).

Co-guest Editor of Special Issue on "Chemistry of Palladium." - ChemCatChem; (2015).

Co-editor of the book "Catalysis by Ceria and related Materials.", Imperial College Press, London; (2013).

Co-guest Editor of Special Issue on "Fundamental understanding of photocatalytic conversions on semiconductor surfaces." Catalysis Today; (2013).

Co-editor of the book "Renewable Resources and Renewable Energy: A Global Challenge.", Second Edition, CRC Press (Francis and Taylor), New York; (2011).

Co-editor of the book "Renewable Resources and Renewable Energy: A Global Challenge.", First Edition, CRC Press (Francis and Taylor), New York (2006).

EVALUATION ACTIVITIES

PE4 Panel Member of Advanced ERC Grant 2021, 23 and 25 – EU (2021-2022; 2023-2024, 2025-2026);

Panel Member of Methusalem Grant 2023 – Netherlands (2023);

Panel Member of the commission evaluating the Institute of Inorganic Chemistry of Czech Academy of Sciences (CAS) (2025);

Evaluator of 2025 New Cornerstone Investigator Program – China (2025);

Evaluator of ERC Research Grant – EU (2017-2018, 2020-2026);

Evaluator for Swiss National Science Foundation / Swiss ERC (2017 and 2021-2022);

Evaluator of Research Proposals for ACS Petroleum Research Fund – USA (2015, 2017, 2018, 2019, 2021, 2022);

Evaluator of Research Proposals for The World Academy of Sciences (TWAS) - Italy; (2008 – 2022; 2024-2025);

Member of the Chemistry Panel (2009-2019) and President of the Chemistry Panel (2020-2022; 2024-2025);

Member of the Evaluator Committee of the AIM Call (2018) – Ministry of Instruction, University and Scientific Research;

Evaluator of Research PRIN (2013, 2015, 2018), POR, SIR (2016), FIRB (2016 and 2017 ex post evaluation);

FARE Projects (2016) and Proof of Concept (2018, 2020 and 2024) – Ministry of Instruction, University and Scientific Research;

Evaluator of Projects for the Ministry of Economic Development - Italy (2013 - 2017);

Evaluator of Research Project for DoE - USA (2017, 2020);

Evaluator of Research Project for the Shota Rustaveli National Science Foundation - Georgia;

Evaluator of Research Projects for the Universities of Padova, Milan – Bicocca, Politecnico di Torino and Venezia Ca'Foscari;

Evaluator of Research Projects for the Israel Science Foundation (ISF) - Israel (2021);

Evaluator of Research Projects for the Czech Academy of Sciences (CAS) - Czech Republic (2020, 2021 and 2022, 2025);

Evaluator of Research Projects for National Science Centre Poland (2022-2023);

Evaluator of Research Projects for Executive Agency for Higher Education, Research, Development and Innovation Funding (2024);

Evaluator of Research Projects for the Chinese Academy of Sciences (CAS) - China (2019);

Evaluator of Research Projects for the Agence Nationale de la Recherche (ANR) – France;

Evaluator of Research Projects for Danish Agency for Higher Education and Science – Denmark (2016, 2017, 2019, 2021-2024);
 Evaluator of Research Projects for National Center for Science and Technology - Kazakhstan (2020, 2022-2024);
 Member of the Evaluation Panel of Research Projects of the Fondazione CariPaRo – Italy (2015, 2016, 2017, 2018, 2019, 2020, 2021, 2022, 2023, 2024, 2026);
 Member of the Evaluation Panel of Research Projects for the Fondazione CariVerona – Italy (2019);
 Member of the Evaluation Panel of Projects for the Fondazione CariTrento e Rovereto – Italy (2019, 2020, 2021, 2022, 2023);
 Peer Reviewer of Italian Products of the research 2001-2003, 2004-2010 and 2015-2019;
 Evaluator of Industrial Projects for the Regione Liguria (2020, 2021, 2023, 2024, 2025, 2026);
 Evaluator of Industrial Projects for the Regione Toscana (2018);
 Evaluator of Industrial Projects for the Regione Sardegna (2018, 2019, 2021, 2022);
 Member of the Peer Reviewer Panel for chemistry at the University of Trieste (2014-2018);
 Member of the Assessment Board of the University of Trieste (2013 - 2019);
 Member of the Spin-Off Panel at the University of Trieste (2020-2025);
 Member of the “Presidio della Qualità – area ricerca” (Quality Board - research) of the University of Trieste (2025 - 2031);
 Coordinator of the “Presidio della Qualità – area ricerca” (Quality Board - Research) of the University of Trieste (2019 - 2022);
 Member of the Group of Expert for the Evaluation of the Italian Research assessment VQR 2011-2014.

Meetings (Invited only)

1. "Beyond the Surface: A Personal Journey into Sustainable Catalysis", to be presented at "57th Symposium on Catalysis", Prague (Czech Republic), October 2026 (Plenary).
2. "Rethinking Catalysis: A Personal Journey Toward Truly Sustainable Processes." to be presented at "2nd Photorefineries Conference", Novi Sad (Serbia), September 2026 (Plenary).
3. "Nanostructured Catalytic Materials for Sustainable Photocatalysis: From Single Sites to Cooperative Systems." to be presented at "IEEE 3M-NANO", Suzhou (China), July 2026 (Plenary).
4. "Beyond the Surface: A Personal Journey into Sustainable catalysis." to be presented at "Chinese-Italian Symposium on Frontiers in Structural Chemistry of Materials", Fuzhou (China), June 2026 (Invited).
5. "Rethinking Catalysis: A Personal Journey Toward Truly Sustainable Processes." presented at "4th International Conference on Reaction Kinetics, Mechanisms and Catalysis & 3rd Forum of Young Researchers on Heterogeneous Catalysis", Budapest (Hungary), June 2026 (Plenary).
6. "Beyond the Surface: A Personal Journey into Sustainable Photocatalysis." presented at "IWSF3", Wuhan (China), April 2026 (Plenary).
7. "The criticality of metal particle size speciation in sustainable catalysis." presented at "the 24 International Symposium on Eco-materials Processing and Design", Wuhan (China), January 2026 (Keynote).
8. "Design of sustainable catalysts." presented at "2025 Sino-Italy Cooperation Workshop", Dalian (China), December 2025 (invited).
9. "The criticality of metal particle size speciation in sustainable catalysis." presented at "XXIII National Congress of Industrial Chemistry", Pisa (Italy), November 2025 (Plenary).
10. "New approaches and challenges in preventing catalysts deactivation by coking and sintering." presented at "2nd International Symposium on Catalytic Removal of Soot Particles", Kraków (Poland), September 2025 (Invited).
11. "Metal nanoparticles, clusters, single atom or combination for sustainable catalysis." presented at "NanoBio", Heraklion (Crete), September 2025 (Invited).
12. Round table discussion at Directors' Forum, Beijing (China), August 2025 (invited).
13. "Metal nanoparticles, clusters, single atom or combination for sustainable catalysis." presented at "ChinaNano2025", Beijing (China), August 2025 (Keynote).
14. "New approaches and challenges in preventing catalysts deactivation by coking and sintering." presented at "The China-Europe International Seminar of Carbon Neutralization", Dalian (China), July 2025 (Invited).
15. "Metal nanoparticles, clusters, single atom or combination for sustainable catalysis." presented at "Oxides for Energy Applications: Bridging Experiment and Theory to Understand Functionality", Saragossa (Spain), July 2025 (Invited).
16. "Metal nanoparticles, clusters, single atom or combination for sustainable catalysis." presented at 2nd Chem-Mat-Bio-AI Interdisciplinary Frontiers Symposium, Wuhan (China), May 2025 (Plenary).
17. "Single atom metal catalysts and beyond." presented at the 2nd International Workshop on Single Atom Catalysis, Milano (Italy), December 2024. (Invited).
18. "Sustainable processes: Producing better and more with less." presented at the Conference on International Exchange of Professionals, Shanhai, (China), November 2024. (Plenary).

19. "Sustainable processes: Producing better and more with less." presented at the Panhellenic Catalysis Symposium, (Cyprus), October 2024. (Plenary).
20. "Smart catalysts for sustainable chemical processes." presented at NanoMaterials for Green Hydrogen Paving the way to a sustainable future, Mestre (Italy), September 2024 (Invited).
21. "Sustainable processes: Producing better and more with less." presented at the 10th International Conference on Advanced Materials, Bucharest (Romania), July 2024. (Plenary).
22. "Frontiers of catalysis in the H₂ economy." presented at Economy revolution by H₂: an open discussion, Udine (Italy) June 2024 (invited).
23. "Sustainable catalytic processes" presented at Climate Change and Planetary Health, Trieste (Italy), June 2024 (invited)
24. "A personal journey into more sustainable photochemical processes." presented at the Shimmer Forum, Chengdu (China), April 2024. (invited).
25. "A personal journey into more sustainable photochemical processes." presented at the JACS Innovation Summit: Powering the role of catalysis in Energy Conversion, Dalian (China), April 2024. (Plenary).
26. "A personal journey into more sustainable photochemical processes." presented at the 1st International Conference on Science and Technology for Sustainable Future (STS-F-2023), Mandi (India), November 2023. (Plenary). from remote
27. "A "cerious" collaboration on supported metals and much more.", presented at the 2023 AIChE meeting, Orlando (USA), November 2023. (Invited).
28. "Sustainability and multidisciplinary." presented at Trieste NEXT, Trieste (Italy), September 2023. (Invited).
29. "A personal journey into more sustainable photochemical processes." presented at the 8th conference on Semiconductor Photochemistry (SP8), Strasbourg (France), September 2023. (Plenary).
30. "The metal/non-metal trajectory in sustainable chemistry.", presented at "the Conference on Artificial Photosynthesis and Green Catalysis (CAP GC) 2023", Lausanne (Switzerland), July 2023. (Invited).
31. "The metal/non-metal trajectory in sustainable chemistry.", presented at "8th International Workshop of Materials Physics.", Bucharest (Romania), May 2023. (Invited).
32. "The metal/non-metal trajectory in sustainable chemistry.", presented at "NANOOSTRAVA23", Ostrava (Czech Republic), May 2023. (Plenary).
33. "From metal to metal-free heterogeneous catalysts: A journey into more sustainable chemical processes." presented at 2nd Interdisciplinary Forum of Frontier Sciences 2022 (IFFS), (China), November 2022. (invited) – from remote.
34. "From metal to metal-free heterogeneous catalysts: A journey into more sustainable chemical processes" presented at CeNS/MCQST Workshop, Venice (Italy), September 2022. (Invited).
35. "From metal to metal-free heterogeneous catalysts: A journey into more sustainable chemical processes." presented at INOR2022, Pisa (Italy), September 2022. (Plenary).
36. "Nanocatalysts for more sustainable chemical processes: opportunities and challenges.", presented at ICC2022 International Conference on Coordination Chemistry, Rimini (Italy), August 2022 (Invited)
37. "Carbon nitride based photocatalysts.", presented at ACS Fall Meeting, Chicago (USA), August 2022. (Invited).
38. "Nanocatalysts for more sustainable chemical processes.", presented at Israel-Italy workshop on Advanced Materials, synthesis, characterization, properties and applications, Tel Aviv (Israel), June 2022 (invited). - from remote due to COVID.
39. "Nano-catalysis: step by step towards more sustainable world." presented at "2021 Soochow University International Workshop on Advanced Catalysis and Energy", Soochow (China), November 2021. (Plenary) - from remote.
40. "A personal perspective into the catalysts for hydrogen production." presented at EF4, Sydney (Australia), October 2021. (Plenary) - from remote.
41. "A journey into organic synthesis by modified carbon nitride photocatalysts." presented at Swiss Chem Soc Fall meeting, Losanne (Switzerland), September 2021. (Keynote) - from remote.
42. "From metals to metal-free catalysts: routes to sustainable chemistry.", presented at "First International Conference on NanoMaterials and Sustainable Applications" (NANO-SA 2020), Mumbai (India), December 2020. (Plenary) - from remote.
43. "Design of photo-catalysts for hydrogen production and simultaneous biomass valorization." presented at the first Annual Network Symposium (ANS) of the MSCA-ITN BIKE project (<https://www.bike-msca.eu/>) September 2020. (Invited) – webinar.

44. "Design of photo- and electro- catalysts for energy and environmental applications.", presented at "Low Dimensional Materials" SINCHEM Winter School, Bologna (Italy), February 2020 (Invited)
45. "The long and winding road to sustainable catalysis.", presented at the European Winter School on Physical Organic Chemistry, Bressanone (Italy), February 2020 (Invited)
46. "Photocatalytic Nanomaterials for the Energy Application.", presented at 4th Fuzhou University (FZU) and Osaka Prefecture University (OPU) Joint International Symposium on Photocatalysis, Photofunctional Materials and Nano-Science & Technology, Fuzhou (China), November 2019 (Plenary)
47. "Smart Catalysts and Today's Energy and Environmental Challenges.", presented at "the XI International Conference "Mechanisms of Catalytic Reactions" (MCR-XI)", Sochi (Russia), October 2019 (Plenary)
48. "Photoassisted production of hydrogen by nanostructured materials.", presented at "Solar driven chemistry: towards new catalytic solutions for a sustainable world", Accademia dei Lincei, Roma (Italy), October 2018 (Invited)
49. "Smart catalysts.", presented at 24th Annual Meeting of the Slovenian Chemical Society, Portorož-Portorose (Slovenia), September 2018 (Plenary)
50. "Opportunities and challenges of well-defined nanocatalysts.", presented at 10th International Conference on Nanomaterials - Research & Application, Brno, Czech Republic, October, 2017 (Plenary)
51. "Nanostructured Materials for catalytic and photocatalytic upgrading of biomass.", presented at Biomass Resources for Renewable Energy Production, Madrid, Spain, June, 2017 (Plenary)
52. "The non- innocent role of nanostructured ceria in energy and environmental applications.", presented at ICRE'2016, Lanzhou, China, August, 2016 (Plenary)
53. "Hybrid nano-catalysts for energy related applications.", presented at 16th International Congress on Catalysis, Beijing, China, July, 2016 (Plenary)
54. "Design of Photocatalytic nanomaterials: Lights and shadows of sustainable world.", presented at Solar Energy Conversion Meeting, Valencia, Spain, May, 2016 (Plenary)
55. "Hierarchical catalysts: fascinating strategies playing with structures at the nanoscale.", presented at COST Meeting, Ljubljana, Slovenia, March, 2016 (Plenary)
56. "Methane catalytic combustion over hierarchical Pd@CeO₂/Si-Al₂O₃: Effect of the presence of water.", presented at 250 ACS meeting, Boston, USA, August 2015 (Invited)
57. "Photocatalytic hydrogen production by reducible oxides." presented at 250 ACS meeting, Boston, USA, August 2015 (Invited)
58. "Design of ceria-based catalyst for energy and environmental applications." presented at Ceramics for Energy, Faenza, Italy, May 2015 (Invited)
59. "Photocatalytic nanomaterials: Lights and shadows of sustainable world." presented at Avogadro Colloquia, Rome, Italy, May 2015 (Invited)
60. "Innovative strategie di sintesi di vecchi e nuovi catalizzatori." presented at Green Planet, Milano, Italy, April 2015 (Keynote)
61. "Design of core-shell catalysts: fascinating strategies playing with structures at the nanoscale.", presented at Catalysis meets sensing, Karlsruher Institut für Technologie, Karlsruhe, Germany, February 2015 (Invited)
62. "Catalyst Design by Modulating Metal-Support Interactions and Spatial Confinement." presented at International Conference on Catalytic Carbon and Hydrogen Management, Jeddah, Saudi Arabia, February 2015 (Invited)
63. "Serendipity or design of catalysts and photo-catalysts?", presented at 39th International Conference and Expo on Advanced Ceramics and Composites, Daytona Beach, USA January 2015 "Advanced Photocatalysts for H₂ and added-value by-products", to be presented at 2014 MRS Meeting & Exhibit, Boston, USA, December 2014 (Invited)
64. "Tuning photo-catalysts properties for sustainable solar fuels.", presented at Fall E-MRS Conference, Warsaw, Poland, September 2014 (Invited)
65. "New directions in catalyst design for energy and environmental applications." presented at International Workshop on Solar Energy Materials (SOLMAT 2014), Bled, Slovenia 2014 (Invited)
66. "Design of photo-catalysts for solar fuels and sustainable chemical reactions.", presented at Material Challenges in Devices for Fuel Solar Production and Employment, Trieste, Italy, May 2014 (Invited)
67. "Metal Clusters and Nanocrystals as Building Blocks for Catalysts Design.", presented at Advanced workshop on solar energy conversion, Venezia, Italy, May 2014 (Invited)
68. "Designing Catalysts by Manipulating Metal Clusters and Nanocrystals as Building Blocks." presented at FineCat 2014 – Symposium on heterogeneous catalysis for fine chemicals, Palermo, Italy, April 2014. (Plenary)

69. "Tuning Metal-support Interactions in Ceria Based Catalysts." presented at Nanotechnology and Sustainability: New Research in Italy and the United States, New York, USA October 2013 (invited)
70. "Tuning metal-support interactions in ceria-based catalysts.", presented at XVII National Congress of Catalysis GIC 2013 and XI National Congress of Zeolites Science and Technology, Riccione, Italy, September 2013 (Plenary)
71. "Advancing the Frontiers in Nanocatalysis and Renewable Energy Conversion Applications.", presented at IX National INSTM Meeting on Material Science and Technology, Bari, Italy, July 2013 (Keynote)
72. "Photocatalytic H₂ and added-value by-products: The role of metal oxide systems in their synthesis from liquid oxygenates.", presented at UNESCO advanced workshop on solar energy conversion, Bucharest, Romania, May 2012 (Invited)
73. "Photocatalytic H₂ and added-value by-products: The role of metal oxide systems in their synthesis from liquid oxygenates.", presented at New Materials for Renewable Energy, Trieste, Italy, October 2011 (Invited)
74. "Tailoring nanostructured catalysts in a hydrogen economy.", presented at SAMIC2010, Bressanone, Italy, December 2010 (Plenary)
75. "Embedded metal particles: a way to active and stable catalysts.", presented at Meeting Italy-Korea on Inorganic Chemistry, Pohang, Republic of South Korea, September 2009 (invited)
76. "Embedded metal particles: a way to active and stable catalysts.", presented at 10th FIGIPAS Meeting in Inorganic Chemistry, Palermo, Italy, July 2009 (Invited)
77. "Embedded metal particles: a way to active and stable catalysts.", presented at 1st International Conference on Nanostructured Materials and Nanocomposites, Kottayam, India, May 2009 (Invited)
78. "Photocatalytic production of hydrogen over tailored CuO_x-embedded TiO₂.", presented at COST D41 Working Group 2 "Oxides Surface Chemistry", Krakow, Poland, May 2009 (Invited)
79. "Aqueous-phase reforming process and catalytic hydrogen production from biomass.", presented at workshop on Biofuels, Chemicals and Polymers from Bio-resources, Santa Fè, Argentina, October 2008 (Plenary)
80. "Aqua phase reforming process and catalytic hydrogen production from biomass.", presented at workshop on "Biofuels from Palm Oil: Emerging Technologies and their Assessment.", Bangi, Malaysia, July 2007 (Invited)
81. "Rh/Ce_xZr_{1-x}O₂/Al₂O₃ nanocomposites for ethanol steam reforming.", presented at 6th International Conference on f- Elements, Wroclaw, Poland, September 2006 (Invited)
82. "Reactivity and stability of nanostructured materials in catalysis: two correlated aspects." presented at Nanoforum. Micro & Nanotechnologies: Where Research Meets Business, Milano, Italy, September 2005 (Invited)
83. "Catalysis technologies and renewable resources, with reference to fuel cells technology, and hydrogen-based technology.", presented at Workshop on "Cleaner Technologies for Sustainable Chemistry", Cairo, Egypt, April 2005 (Invited)
84. "Nanostructures and catalysis. How "innocent" is the support?", presented at 34th national meeting of the Inorganic Chemistry Division of the Italian Chemical Society, July 2005 (Plenary)
85. "Catalytic technologies for control of air pollution from mobile sources.", presented at Meeting Italy-Korea on Inorganic Chemistry, Seoul, Republic of South Korea, September 2003 (Invited)
86. "Technologies for the control of gaseous emissions and particulate matter.", presented at ICS-UNIDO Expert Group Meeting on "Expert Group Meeting: Cleaner Technologies for Green Chemistry and Promotion of Related Projects", Trieste, Italy, May 2003 (Invited)
87. "Prevention of air pollution from mobile sources: from petrol to renewable resources.", presented at Workshop on "Catalytic Technologies for Sustainable Industrial Processes Utilizing Crop-derived Renewable Raw Materials.", Bangi, Malaysia, December 2002 (Invited)
88. "Catalytic technologies for control of air pollution from mobile sources.", presented at Workshop on "Cleaner Technologies for Sustainable Chemistry.", Cape Town, Republic of South Africa, December 2002 (Invited)
89. "Technologies for particulate emission control.", presented at ICS-UNIDO Expert Group Meeting on "Perspectives on Cleaner Technologies for Sustainable Chemistry", Trieste, Italy, April 2002 (Invited)
90. "Catalytic technologies for prevention/control of air pollution from mobile sources.", presented at Workshop on "Technologies and Processes for Sustainable Development and Pollution Reduction / Prevention.", Brno, Prague, Czech Republic, January 2002 (Invited)
91. "Catalytic technologies for prevention/control of air pollution from mobile sources.", presented at Workshop on "Catalytic Technologies for Sustainable Industrial Processes.", Buenos Aires, Argentina, November 2001 (Invited)

92. "Design of the three-way catalyst for the car of the 21st century.", presented at 6th FIGIPS Meeting in Inorganic Chemistry, Barcelona, Spain, July 2001 (Invited)

GRANTS (over 6 millions €)

- 2026-2031 – “PhotoElectrocatalytic smart Systems for CHEmicals and FUels production.”, (PESCHE-FU, FIS3, Italy) - 2.281.564 €
- 2026-2030 – “Research and Innovation to develop the H₂ ecosystem.”, (RISE-H2, Regione FVG, Italy) – 1.485.000 €
- 2025-2026 – “Sustainable hydrogen production through photoelectrochemical systems activated by sunlight.” (PRIDE, PNRR, IT) - 500.000 €

- 2005-2009 - Technical and scientific responsible of the project FISR-MIUR “Inorganic and hybrid nano-systems for the development and innovation of fuel cells”

- 2001-2008 - Coordinator of Research activities in the framework of joint projects (FIRB - MIUR and Center of Excellence of Nanostructured Materials - University of Trieste - MIUR) focused on the synthesis and characterization of heterogeneous catalysts.

COURSES TAUGHT

Inorganic Chemistry (Fundamentals) - Bachelor in biology
 Green Chemistry - Bachelor in natural sciences
 Inorganic Chemistry Laboratory - Bachelor in geology
 Heterogeneous Catalysis - Master in chemistry
 Industrial Chemistry - Master in chemistry
 Synthesis and Reactivity of Nanomaterials - Master in chemistry
 Nanostructures in catalysis – PhD nanotechnology
 10 tips for preparing a successful manuscript with an ACS editor- Transversal activity for PhD candidates
